About Us

We are a group of creators from Cupertino High School who just want to make the world a better place :)

Mission and Vision

With the world facing an unprecedented challenge in the COVID-19 pandemic, people all around the world have been affected like never before. We thank those on the frontlines, from doctors and nurses to sanitation workers, who are doing everything they can to keep the world running as smoothly as possible. We want to help in any way we can— which is why we're calling on the creators, hackers, and innovators of the world to band together and help those in need. **Just hack away, and let us help you bring your ideas to life.**
